(1) The total number of theoretical voting rights (or "gross" voting rights) is used as the basis for calculating the crossing of shareholding thresholds. In accordance with Article 223-11 of the AMF General Regulation, this number is calculated on the basis of all shares to which single or double voting rights are attached, including shares which voting rights have been suspended.

(2) The total number of exercisable voting rights (or "net" voting rights) is calculated without taking into account the shares which voting rights have been suspended (treasury shares). It is published to ensure that the public is properly informed, in accordance with the AMF recommendation dated July 17, 2007.
